INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF INVESTCORP S.A.

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of Investcorp S.A. ("the Company") and its subsidiaries (together the "Group"), which comprise the consolidated balance sheet as at 30 June 2012, and the consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Board of Directors' responsibility for the consolidated financial statements
The Board of Directors is responsible for the preparation and fair presentation of these
consolidated financial statements in accordance with International Financial Reporting
Standards, and for such internal control as the Board of Directors determines is necessary
to enable the preparation of the consolidated financial statements that are free from
material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF INVESTCORP S.A. (continued)

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of 30 June 2012, its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

- 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES
- A. ORGANIZATION

(i) Incorporation

Investcorp S.A. (the "Company") was originally incorporated as a limited liability company in the Grand Duchy of Luxembourg and qualified as a financial holding company. On May 18, 2010, the Company shifted its domicile to the Cayman Islands as a limited liability company incorporated as an exempted company. The address of the registered office of the Company is at the offices of Paget Brown Company Ltd., Boundary Hall, Cricket Square, P.O. Box 1111, Grand Cayman, KY1-1102, Cayman Islands.

The Company is a holding company owning various subsidiaries (together the "Group" or "Investcorp"). The activities of the Company are substantially transacted through its subsidiaries. The ultimate parent of the Group is SIPCO Holdings Limited [see Note 1.A (iii)].

Taxation on income from foreign entities is provided for in accordance with the fiscal regulations of the countries in which the respective Group entities operate.

The consolidated financial statements for the year ended June 30, 2012 were authorized for issue in accordance with a resolution of the Board of Directors dated September 16, 2012.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

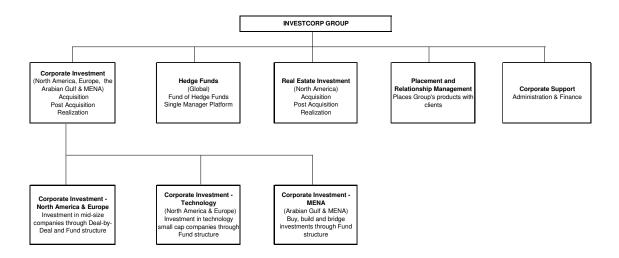

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

A. ORGANIZATION (continued)

(ii) Activities

The Group's principal activity is providing products in three broad alternative investment asset classes to its client base and co-investing in these together with its clients. The alternative investment asset classes in which the Group specializes are corporate investment, hedge funds and real estate investment. Within the corporate investment asset class the Group offers three products namely, (a) Corporate investment–North America & Europe, (b) Corporate investment–Technology and (c) Corporate investment–MENA.

In carrying out its activities, the Group performs two principal roles (a) to act as an intermediary by bringing global alternative investment opportunities to its clients, and (b) to act as a principal investor by co-investing with its clients in each of its investment products.

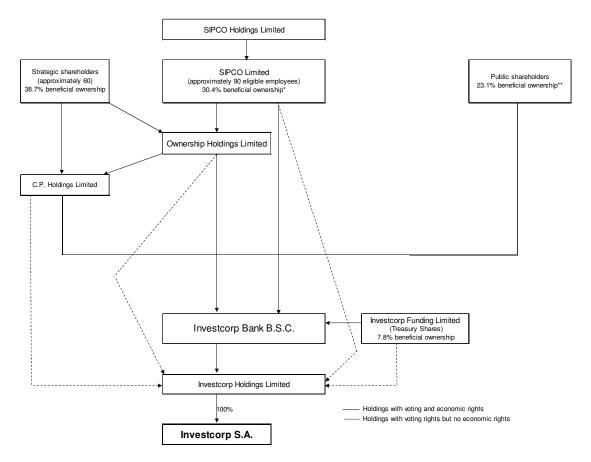

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

A. ORGANIZATION (continued)

(iii) Ownership

The Company is wholly owned by Investcorp Holdings Limited ('IHL' or the "Parent Company"), incorporated in the Cayman Islands as a limited liability company. Investcorp Bank B.S.C. (the "Bank"), incorporated in the Kingdom of Bahrain, is the parent company of IHL.

^{*}Includes 13.5% in shares of the Bank that are held for potential future allocation to the Employee Share Ownership Plan and 2% un-vested shares under the Employee Share

The Bank is controlled by Ownership Holdings Limited ('OHL'), through its shareholding directly, and through C.P. Holdings Limited ('CPHL'), of the issued ordinary shares of the Bank. OHL is, in turn, ultimately controlled by SIPCO Holdings Limited ('SHL'). SIPCO Limited ('SIPCO'), an SHL subsidiary, is the entity through which employees own beneficial interests in the Bank's ordinary shares. The Bank is, therefore, controlled by its employees through their beneficial ownership as a group via SHL, SIPCO, OHL and CPHL.

SHL, SIPCO, OHL and CPHL are companies incorporated in the Cayman Islands.

Employee Share

** Includes 0.3% beneficial ownership of Bank shares held in the form of unlisted Global Depositary Receipts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

A. ORGANIZATION (continued)

(iv) Subsidiary companies

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. A subsidiary is an entity that the Group has the power to control so as to obtain economic benefits and therefore excludes entities held in a fiduciary capacity.

The Company is the principal asset holding operating entity within the Group and consistent with covenants contained in the Group's medium and long-term debt agreements, at least 95% of the consolidated assets of the Bank are held by the Company or subsidiaries that are owned directly or indirectly by the Company.

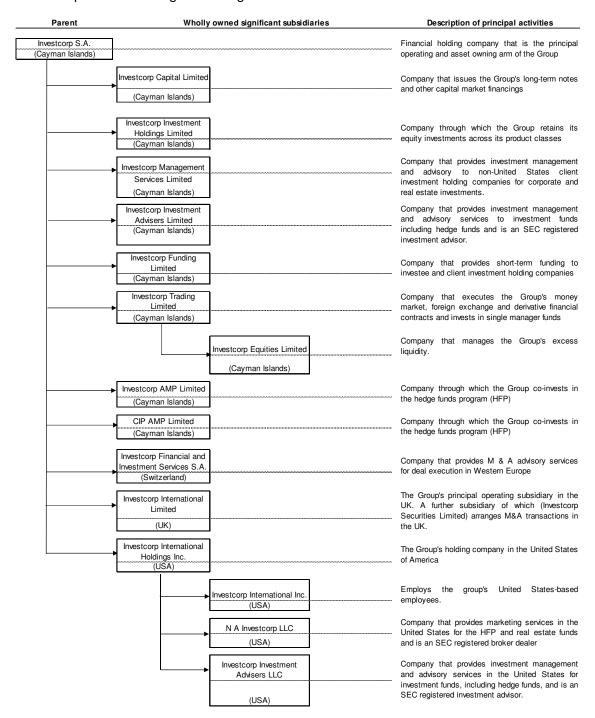

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

A. ORGANIZATION (continued)

(iv) Subsidiary companies (continued)

The Group structure along with its significant subsidiaries is illustrated below:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30. 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of the Group are prepared in accordance with International Financial Reporting Standards ("IFRS"). The consolidated financial statements are prepared and presented in United States dollars, this being the functional currency of the Group, and rounded to the nearest thousands (\$000s) unless otherwise stated.

New and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year, except for the following new and amended IFRS and the IFRS Interpretations Committee (the "IFRIC") interpretations that are applicable for the current fiscal year:

- Amendments to IAS 24 Related Party Disclosures
- Amendments to IAS 32 Presentation
- Amendments to IFRS 7 Financial Instruments Disclosures
- Amendments to IFRS 3 Business Combinations
- Amendments to IAS 1 Presentation of Financial Statements

The adoption of the above amendments did not have any material impact on the consolidated financial position or performance of the Group.

Other amendments resulting from Improvements to IFRSs to the following standards did not have any material impact on the accounting policies, consolidated financial position or performance of the Group:

- IFRS 3 Business Combinations (Contingent consideration arising from business combination prior to adoption of IFRS 3 (as revised in 2008);
- IFRS 3 Business Combinations (Un-replaced and voluntarily replaced sharebased payment award);
- IAS 27 Consolidated and Separate Financial Statements:
- IAS 34 Interim Financial Reporting; and
- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments.

New standards, amendments and interpretations issued but not yet effective

Standards issued but not yet effective are listed below together with their effective date. This listing is of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date.

- IAS 1 amendment Financial Statement Presentation, 1 July 2012
- IAS 19 amendment Employee Benefits, 1 January 2013
- IFRS 9 Financial Instruments; Classification And Measurement, 1 January 2015
- IFRS 10 Consolidated Financial Statements, 1 January 2013
- IFRS 11 Joint Arrangements, 1 January 2013
- IFRS 12 Disclosure of Interests in Other Entities, 1 January 2013
- IFRS 13 Fair Value Measurement, 1 January 2013
- IAS 27 Separate Financial Statements, 1 January 2013
- IAS 28 Investments in Associates and Joint Ventures Separate Financial Statements,1 January 2013

The management is considering the implications of these standards and amendments, their impact on the Group's consolidated financial position and results and the timing of their adoption by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Accounting convention in the consolidated financial statements preparation

The consolidated financial statements are prepared under the historical cost convention except for the re-measurement at fair value of financial instruments under IAS 39 and revaluation of premises and equipment.

ii) Going concern

The Group's management has made an assessment of its ability to continue as a going concern and is satisfied that the Group has sufficient resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on a going concern basis.

iii) Use of estimates and judgments

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amount of financial assets and liabilities at the date of the financial statements. The use of estimates is principally limited to the determination of the fair values of Fair Value Through Profit or Loss ("FVTPL") co-investments in corporate investment and real estate investment (see notes 9 and 10), the determination of performance fee on assets under management and impairment provisions for financial assets other than FVTPL investments (see Note 11).

In the process of applying the Group's accounting policies, management has made the following judgments with respect to classification of financial assets, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements.

iv) Classification of financial assets

a) Investments

On initial investment, management decides whether an investment should be classified as held to maturity, held for trading, carried as FVTPL, or AFS.

For those deemed to be held to maturity, management ensures that the requirements of IAS 39 are met and, in particular, the Group has the intention and ability to hold these investments to maturity.

Investments acquired with the intention of a long-term holding period, such as in corporate investment, real estate investment or hedge funds, including those over which the Group has significant influence, are classified as FVTPL investments when the following criteria are met:

- 1. they have readily available reliable measure of fair values; and
- the performance of such investments is evaluated on a fair value basis in accordance with the Group's investment strategy and information is provided internally on that basis to the Group's senior management and board of directors.

All other investments are classified as Available-For-Sale ("AFS").

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Other liquid assets

Other liquid assets, which form part of "placements with financial institutions and other liquid assets", are recorded at amortized cost less any impairment in value other than those assets which contain embedded derivatives requiring either separation of the embedded derivative or classification of the entire instrument as FVTPL assets. The management has designated such assets as FVTPL assets.

v) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. The results of all subsidiaries are included in the consolidated statement of income from the effective date of formation or acquisition. The financial statements of the Company's subsidiaries are prepared for the same reporting year as the Company, using consistent accounting policies. All intercompany balances, income and expenses have been eliminated on consolidation.

vi) Foreign currencies

A foreign currency transaction is recorded in the functional currency at the rate of exchange prevailing at the value date of the transaction. Monetary assets and liabilities in foreign currencies that are held at the balance sheet date are retranslated at market rates of exchange prevailing at that date. Gains and losses arising on retranslation are recognized in the consolidated statement of income under treasury and other asset based income.

Non-monetary assets that are measured in terms of historical cost in foreign currencies are recorded at rates of exchange prevailing at the value dates of the transactions. Non-monetary assets in foreign currencies that are stated at fair value are retranslated at exchange rates prevailing on the dates the fair values were determined. Gains and losses on fair valuation of FVTPL investments are taken to the consolidated statement of income and on AFS investments are taken to the consolidated statement of comprehensive income.

vii) Receivables

Subscription receivables are recognized when the obligation is established, i.e., when a binding subscription agreement is signed. These are carried at cost less provision for impairment. Provisions are made against receivables as soon as they are considered doubtful.

viii) Loans and advances

Loans and advances are stated at amortized cost, net of any impairment provisions.

ix) Co-investments in hedge funds

The Group's co-investments in hedge funds are classified as FVTPL investments and are stated at fair value at the balance sheet date with all changes being recorded in the consolidated statement of income. The fair value of co-investments in hedge funds is based on underlying net asset values as explained in Note 8.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES (continued)

x) Co- investments in corporate investment and real estate investment

The Group's co-investments in corporate investment and real estate investment are primarily classified as FVTPL investments. These investments are initially recorded at acquisition cost (being the initial fair value) and are re-measured to fair value at each balance sheet date, with resulting unrealized gains or losses being recorded as fair value change in the consolidated statement of income for the year. Consequently, there are no impairment provisions for such investments.

Certain of the Group's strategic and other investments are classified as AFS and are initially recorded at fair value including acquisition charges. The fair value for these investments is determined using valuations implied by material financing events involving third party capital providers, such as a partial disposal, additional funding, indicative bids, etc. The resulting change in value of these investments is taken to consolidated statement of comprehensive income and recorded as a separate component of equity until they are impaired or derecognized at which time the cumulative gain or loss previously reported in equity is included in the consolidated statement of income for the year.

Certain debt investments made in connection with the Group's co-investments in corporate investment and real estate investment are classified as held-to-maturity investments and are carried at amortized cost, less provision for impairment, if any.

xi) De-recognition of financial instruments

A financial asset (in whole or in part) is derecognized either when the Group has transferred substantially all the risks and rewards of ownership, or in cases when it has neither transferred nor retained substantially all the risks and rewards but it no longer has control over the asset or a proportion of the asset.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

xii) Trade date accounting

Purchases and sales of financial assets that require delivery of the assets within a timeframe generally established by regulation or convention in the market place are recognized using the "trade date" accounting basis (i.e. the date that the entity commits to purchase or sell the asset).

xiii) Impairment and un-collectability of financial assets

An assessment is made at each balance sheet date for all financial assets other than those classified as FVTPL assets to determine whether there is objective evidence that a specific financial asset may be impaired. Judgment is made by the management in the estimation of the amount and timing of future cash flows along with making judgments about the financial situation of the underlying asset and realizable value of collateral. If such evidence exists, the estimated recoverable amount of that asset is determined and any impairment loss, determined appropriately, is recognized in the consolidated statement of income and credited to an allowance account. In the case of AFS equity investments, such impairment is reflected directly as a write down of the financial asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES (continued)

xiii) Impairment and un-collectability of financial assets (continued)

In the case of financial assets other than AFS, the impaired financial assets together with the associated allowance are written off when there is no realistic prospect of future recovery. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If an amount written off earlier is later recovered, the recovery is credited to the consolidated statement of income.

Impairment is determined as follows:

- a) For assets carried at amortized cost, impairment is based on estimated cash flows discounted at the original effective interest rate; and
- b) For AFS assets carried at fair value, impairment is the cumulative loss that has been recognized directly in equity.

xiv) Premises and equipment

Premises and equipment substantially comprise land, buildings and related leasehold improvements used by the Group as office premises.

The Group carries certain operating assets at revalued amounts, being the fair value of the assets at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying value. Any revaluation surplus is credited to the assets revaluation reserve included in the equity, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit and loss, in which case the increase is recognized in profit or loss. A revaluation deficit is recognized directly in profit or loss, except that a deficit directly offsetting a previous surplus on the same asset is directly offset against the surplus in the asset revaluation reserve. A transfer from the asset revaluation reserve to retained earnings is made for any difference between the depreciation based on the revalued carrying amount of the asset and depreciation based on the original cost of the asset.

All other items are recorded at cost less accumulated depreciation.

Premises and equipment are depreciated on a straight line basis over their estimated useful lives which are as follows:

Leasehold and building improvements 10 - 15 years

Operating assets 3 - 23 years

The above useful lives of the assets and methods of depreciation are reviewed and adjusted, if appropriate, at least at each financial year end.

xv) Payables, accruals and provisions

Provision for employee benefit costs is made in accordance with contractual and statutory obligations and the terms of benefit plans approved by the Board of Directors (see Note 22).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES (continued)

xv) Payables, accruals and provisions (continued)

Provisions are made when the Group has a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

xvi) Unfunded deal acquisitions

Unfunded deal acquisitions represent amounts contractually payable by the Group in respect of investment acquisitions the agreements for which are signed as of the balance sheet date that have not been funded.

xvii) Cash and cash equivalents

Cash and cash equivalents comprise cash and short term funds, cash in transit, other liquid funds and placements with financial institutions that are readily convertible into cash and are subject to insignificant risk of changes in value with an original maturity of three months or less.

xviii) Borrowings

Borrowings, represented by medium-term revolvers, medium-term debt and long-term debt, are initially recognized at the fair value of consideration received and subsequently adjusted for the impact of effective fair value hedges.

Transaction costs relating to borrowings are initially capitalized and deducted from the borrowings and subsequently recognized as interest expense over the expected life of these borrowings.

xix) Treasury shares

Treasury shares are stated at acquisition cost and are shown as a deduction to equity. Any surplus arising from the subsequent sale of treasury shares at a price greater than cost is treated as non-distributable and included in a reserve under equity. Any deficit arising from the subsequent sale of treasury shares at a price lower than cost is charged first against any previously established reserve from past transactions in treasury shares, and where such reserve is insufficient, then any difference is charged to retained earnings.

xx) Dividends

Proposed dividends are disclosed as appropriations within equity until the time they are approved by the shareholders. On approval by shareholders, these are transferred to liabilities.

xxi) Offsetting

Financial assets and financial liabilities are only offset and the net amount reported in the consolidated balance sheet when there is a legally enforceable right to offset the recognized amounts and the Group intends to settle on a net basis.

xxii) Derivative financial instruments

Derivatives are stated at fair value determined by using prevailing market rates or internal pricing models.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

B. SIGNIFICANT ACCOUNTING POLICIES (continued)

xxii) Derivative financial instruments (continued)

Derivatives that qualify for hedge accounting under IAS 39 are classified into fair value hedges or cash flow hedges. Hedge accounting is discontinued when the hedging instrument expires, or is sold, terminated or exercised, or no longer qualifies for hedge accounting. Accounting treatments for both types of hedges and in the case of discontinuance of hedges are disclosed in Note 18.

For derivatives that do not qualify for hedge accounting, any gain or loss arising from changes in their fair value is taken to the consolidated statement of income.

xxiii) Income and expenses

Interest income is recognized using the effective yield of the asset and is recorded as asset based income. Investment income from all FVTPL investments is recognized on the basis of changes in fair value during the year.

Fee income is recognized when services are rendered. Performance fees are recognized when earned.

Realized capital gains or losses on investments other than FVTPL investments are taken to income at the time of derecognition.

Interest on borrowings represents funding cost and is calculated using the effective interest rate method, adjusted for gains or losses on related cash flow hedges.

2. SEGMENT REPORTING

A. ACTIVITIES

i) As an intermediary

The Group acts as an intermediary by arranging investments in, and managing such investments in, alternative investment assets for institutional and high net worth clients through operating centers in the Kingdom of Bahrain, London, New York and Riyadh. Fee income is earned throughout the life cycle of investments by providing these intermediary services to clients. The Group's clients are primarily based in the Arabian Gulf states. However the Group has been expanding its franchise globally, targeting institutional investors in the United States and Europe.

ii) As a principal

The Group co-invests along with clients in all the alternative investment asset products it offers to its clients. Income from these proprietary co-investments in corporate investment, hedge funds and real estate investment is classified as asset based income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

2. SEGMENT REPORTING (continued)

B. ASSET CLASSES, LINES OF BUSINESS AND REPORTING SEGMENTS

The Group classifies its reporting segments on the basis of its three product asset classes and the individual lines of business within these product asset classes that are responsible for each distinct product category.

The following table shows the relationship between the Group's reporting segments, asset classes, lines of business and products.

Reporting Segments	Asset Classes	Lines of Business (Product Categories)	Products
Corporate investment	Corporate investment	Corporate investment— North America & Europe	- Deal by deal offerings - Closed-end fund(s)
		Corporate investment— Technology	- Closed-end fund(s)
		3) Corporate investment— MENA	- Closed-end fund(s)
2) Hedge funds	2) Hedge funds	4) Hedge funds	Fund of hedge fundsSingle managersStructured and levered products
3) Real estate investment	3) Real estate investment	5) Real estate investment	- Equity investments - Mezzanine debt investments
4) Corporate support			- Liquidity/working capital /funding

Each of the five lines of business is comprised of its team of investment professionals and is supported by a common placement and relationship management team. The lines of business, together with their related product offerings and the reporting segments are described in further detail below:

i) Corporate Investment–North America & Europe ("CI-NA & Europe")

The CI–NA & Europe team, based in London and New York, arranges corporate investments in mid-size companies in North America and Western Europe with a strong track record and potential for growth. These investments are placed primarily on a deal-by-deal basis with the Group's investor base in the Arabian Gulf states, and also offered through conventional fund structures to international institutional investors. The Group retains a small portion as a co-investment on its consolidated balance sheet. These investments are managed by the team on behalf of investors for value optimization until realization.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

2. SEGMENT REPORTING (continued)

B. ASSET CLASSES, LINES OF BUSINESS AND REPORTING SEGMENTS (continued)

ii) Corporate Investment–Technology ("CI-Technology)

The CI-Technology team, based in London and New York, arranges and manages investments in technology small cap companies in North America and Western Europe, with a high potential for growth. Given their relatively higher risk-return profile, these investments are primarily offered to clients through fund structures that ensure diversification across several investments. The Group also has co-investments alongside its clients in the technology funds.

iii) Corporate Investment–MENA ("CI-MENA")

The CI-MENA team, based in the Kingdom of Bahrain, targets buy, build ("greenfield") and bridge investment opportunities primarily in the Arabian Gulf states. The team also considers, on a selective basis, similar investment opportunities in the wider Middle East and North Africa (MENA) region, including Turkey. Given their risk-return profile, and the need for multiple follow-on rounds of funding, these investments are being offered to clients through a fund structure that ensures diversification across several investments. The Group also co-invests alongside its clients in the Fund.

iv) Hedge Funds ("HF")

The HF team, operating from New York and London, manages Investcorp's Fund of Hedge Funds business (referred to as the Hedge Funds Program, "HFP") and Single Managers business (referred to as the Single Manager Platform, "SMP") including proprietary co-investment as well as client assets. The HF business aims to achieve attractive returns on a risk-adjusted basis over a medium-term period with low correlation to traditional and other alternative asset classes, through a diversified portfolio of investments in hedge funds.

v) Real Estate Investment ("RE")

The RE team, based in New York, arranges investments in North America-based properties with strong cash flows and/or potential for attractive capital gains over a three to five year holding period. Several properties are assembled into diversified portfolios that are then placed individually with the Group's investor base in the Gulf, with the Group retaining a small portion as a co-investment on its own consolidated balance sheet. Further, the Group also provides its investor base with mezzanine investment opportunities through fund structures, with the Group retaining a small portion as a co-investment on its own consolidated balance sheet. The property investments are managed by the RE team on behalf of investors for value optimization up until realization.

vi) Corporate Support

Corporate support comprises the Group's administration, finance and management functions, which are collectively responsible for supporting the five lines of business through services including risk management and treasury, accounting, legal and compliance, corporate communications, back office and internal controls, technology and general administration.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

2. SEGMENT REPORTING (continued)

C. REVENUE GENERATION

i) Fee income

There are several components of fees that are earned from providing intermediary services to clients and investee companies.

Management fees are earned from client holding companies and investee companies based on investments under management and from funds based on clients' commitments or investments.

Activity fees comprise acquisition fees earned by the Group from investee companies on new corporate investment or real estate investment acquisitions (usually as a percentage of the total purchase consideration), placement fees earned by the Group from Gulf clients at the time of placing new corporate investment or real estate investment with them (usually as a percentage of the total subscription from a client), and ancillary fees that are earned from investee companies for providing advisory services for ancillary transactional activity, including refinancing, recapitalizations, restructuring and disposal.

Performance fees are calculated as a portion of the gain earned by clients on investments that exceed a specified hurdle performance/rate.

ii) Asset based income

This includes realized as well as unrealized gains and losses over previously reported values of FVTPL co-investments in corporate investment and real estate investment, value appreciation on the Group's co-investment in hedge funds, cash or pay-in-kind interest from various debt investments in corporate investment or real estate investment and rental income distributions from real estate investment.

All other income that is common to the Group (such as income arising from the deployment of the Group's excess liquidity) is treated as treasury and other asset based income and recorded under Corporate Support.

D. ALLOCATION OF OPERATING EXPENSES

Operating expenses for each reporting segment comprise the respective lines of businesses' employee compensation and benefits and costs of its technology and communications infrastructure and resources, including professional fees for external advisors, travel and business development costs and premises. These are allocated between intermediary and principal co-investing activities.

The operating expenses associated with principal co-investing activities are determined to be:

- a) a fee calculated at 1.2% of average proprietary co-invested assets of each reporting segment from the Group's balance sheet, placements with banks and other financial institutions; plus
- a 20% carry on excess asset based income, which is calculated as gross asset based income after provisions less interest expense less the 1.2% fee in (a) above.

The remaining operating expenses after allocation to principal co-investing activities represent the costs relating to intermediary activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

2. SEGMENT REPORTING (continued)

E. SEGREGATION OF ASSETS

Assets directly attributable to the corporate investment and real estate investment reporting segments are primarily in the form of proprietary co-investments by the Group in investments arranged by the respective lines of businesses, classified as FVTPL investments in the consolidated balance sheet. Assets directly attributable to the hedge funds reporting segment are primarily in the form of the Group's proprietary co-investment in hedge funds. All other assets that are common to the Group are recorded under Corporate Support.

F. ALLOCATION OF EQUITY, LIABILITIES AND INTEREST EXPENSE

The Group uses a variety of risk based methodologies including Value-at-Risk (VaR) to determine the required amount of total economic capital that is needed to support growth objectives under normal and extreme stress conditions for each business line. Economic capital is allocated to each business line based on the current amount of capital required to cover potential losses over a one year horizon. This capital allocation is then stressed by developing a five year projection plan which takes into account the current size of the business, expected growth and the associated capital required to support the risks within each reporting segment over the five year term.

Having determined the assets directly attributable to each reporting segment, and the economic capital requirements, the Group allocates liabilities (debt funding) to each segment based on the relative maturity profile of the segment's assets. Longer-dated liabilities are generally allocated to the corporate investment and real estate investment reporting segments, considering their medium-long term investment horizon.

The allocation of liabilities determined above, in turn, drives the allocation of interest expense for each reporting segment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

2. **SEGMENT REPORTING (continued)**

G. BALANCE SHEET AND STATEMENT OF INCOME BY REPORTING SEGMENTS

Consolidated balance sheets as at June 30, 2012 and 2011 by reporting segment are as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

2. SEGMENT REPORTING (continued)

G BALANCE SHEET AND STATEMENT OF INCOME BY REPORTING SEGMENTS (continued)

Gross operating income of \$243.4 million (2011: \$255.5 million) from the corporate investment asset class includes \$38.1 million and \$27 million (2011: \$43.4 million and \$19.3 million) relating to CI-Technology and CI-MENA respectively. The balance relates to CI-NA & Europe.

Revenue reported above represents revenue generated from external customers. There were no inter-segment revenues in the year (2011: nil). All of the Group's fee income arises from intermediary activities while the asset based income includes \$17.5 million (2011: \$18.7 million) interest income from items at amortized cost.

None of the Group's customers has generated ten percent or more of the Group's total revenues reported above.

IFRS also requires an entity to report its segment assets and segment revenues along its geographical regions. All significant activities of the Group are performed on an integrated, worldwide basis. The Group's clients and trading partners also operate in the international market place, and neither their domicile nor the geographical location of a transaction is necessarily related to the country in which the asset or liability underlying the transaction is located. Consequently, any geographical segmentation of revenues would be potentially misleading. As such, segmentation of revenues by region has not been presented. Notes 9 and 20 (iii) present the geographical split of assets and off-balance sheet items.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

3. CATEGORIES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The table below shows categories of the Group's financial assets and financial liabilities at the balance sheet date.

June 30, 2012 \$000s	Designated as FVTPL	Items at amortized cost	AFS	Derivatives	Total

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

4. ASSETS UNDER MANAGEMENT (continued)

In the above table all hedge funds and Investcorp balance sheet co-investment amounts for corporate investment and real estate investment are stated at fair values while the other categories are stated at cost.

Certain of the Group's clients entered into a trust arrangement whereby their call account balances maintained with the Bank were transferred into individual trust fund accounts managed by a common trustee. These trust funds are invested in highly liquid assets which have a credit rating no lower than that of Investcorp, or placed on deposit with Investcorp. Client monies held in trust earn the return generated from the assets of the trust, with a guaranteed minimum return equivalent to inter-bank based market rates.

All of these clients' assets (including affiliates and co-investors) are managed in a fiduciary capacity and the Group has no entitlement to these assets. Clients bear all of the risks and earn a majority of the rewards on their investments, subject to normal management and performance fee arrangements. Accordingly, these assets are not included in the Group's consolidated balance sheet.

5. OPERATING EXPENSES

\$000s	2012	2011
Staff compensation	67,545	130,209
Other personnel costs	14,629	17,266
Professional fees	23,383	22,999
Travel and business development	9,095	9,691
Administration and research	14,460	13,476
Technology and communication	2,984	3,017
Premises	10,509	10,675
Depreciation	3,768	4,313
Other	2,107	1,037
Total	148,480	212,683

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

6. RECEIVABLES AND PREPAYMENTS

\$000s	June 30, 2012	June 30, 2011
Subscriptions receivable	44,363	106,884
Receivables from investee and holding companies	152,906	102,417
Investment disposal proceeds receivable	6,910	58,977
Hedge funds related receivables	29,491	10,599
Accrued interest receivable	4,912	4,617
Prepaid expenses	38,487	29,681
Other receivables	114	16,836
	277,183	330,011
Provisions for impairment (see Note 11 & 20(i))	(6,986)	(43,431)
Total	270,197	286,580

Receivables arise largely from subscriptions by clients to the Group's investment products, fees earned in respect of the Group's investment management, investment performance and other transactional services, interest accruals on loans and advances and proceeds due from investment disposals.

Subscriptions receivable represent amounts due from clients for participation in the Group's deal by deal investment products. These arise in the normal course of the Group's placement activities and are recorded when a client signs a binding agreement confirming his or her participation in an investment offering. These are typically collected over the short-term, and, in the interim period prior to receipt of cash, are collateralized by the underlying investment assets.

Receivables from investee and holding companies include management fee and other receivables, which are due from investee companies and performance fee accrued on client assets under management.

Investment disposal proceeds receivable includes proceeds due from contracted disposals of corporate investment and real estate investment. They also include redemption proceeds receivable from underlying hedge fund managers relating to the Group's co-investment in HF through internal parallel vehicles.

Hedge funds related receivables represent amounts due from HFP funds for management and administrative services and performance fees.

Accrued interest receivable represents interest receivable on placements with banks and other financial institutions, from investee companies on investment debt and from investment holding companies on working capital advances.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

7. LOANS AND ADVANCES

\$000s	June 30, 2012	June 30, 2011
Advances to Gulf Opportunity Fund and Technology Funds	11,939	-
Advances to investment holding companies	79,584	114,181
Advances to Employee Investment Programs	94,667	97,617
Other advances	14,264	7,585
	200,454	219,383
Provisions for impairment (see Note 11 & 20(i))	(11,852)	(49,570)
Total	188,602	169,813

Loans and advances arise largely as a result of the Group extending working capital advances to investment holding companies and include advances to employees to facilitate co-investment in the Group's products.

Advances to the Gulf opportunity and technology funds represent amounts invested on behalf of the Group's clients in the acquisitions and expenses of the funds in the interim period prior to receipt of the associated capital call from clients. These advances carry interest at market rates. In both cases the advances, in management's opinion, represent a low risk to the Group.

Advances to investment holding companies arise largely as a result of the Group extending working capital advances to companies established for client participation in the Group's investment products. These advances carry interest at market rates.

Advances to Employee Investment Programs represent the amounts advanced by the Group on behalf of employees in connection with their co-investment in the Group's investment products. These advances carry interest at LIBOR plus a margin, and are collateralized by the underlying investments, resulting in a low risk to the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

8. HEDGE FUNDS CO-INVESTMENTS

Co-investments in hedge funds, classified as FVTPL, comprise a portion of the Group's liquidity deployed alongside clients in the various fund of hedge funds and single manager hedge funds products offered by the Group, and similar internal vehicles. The Group currently manages several funds of hedge funds and structured fund products. The underlying hedge fund managers invest in a variety of financial instruments, including equities, bonds, and derivatives. In addition, the Group seeds investments in several emerging hedge fund managers on its single manager platform. An emerging manager is typically a manager who is just starting his or her firm, but may also include an established manager at low levels of AUM.

The Group's investments in hedge funds comprise the following:

\$000s	June 30, 2012	June 30, 2011
Direct fund investments Structured and leveraged products	116,052 298,046	400,734 206,664
Total balance sheet co-investments	414,098	607,398

The net asset value of the Group's investments in hedge funds is determined based on the fair value of the underlying investments of each fund as advised by the fund manager. Significant controls are built into the determination of the net asset values of the various hedge funds, including the appointment of third party independent fund administrators, use of separate accounts provided by fund managers for increased transparency and an independent verification of the prices of underlying securities through a dedicated operational risk group unit.

Out of the total co-investment in hedge funds, \$29 million (June 30, 2011: \$8.9 million) comprise funds which are not immediately available for redemption due to gating clauses imposed by the underlying fund managers.

A portion of the Group's co-investment in hedge funds is utilized to secure a structured revolving facility (see note 14).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

9. CORPORATE CO-INVESTMENTS

\$000s	June 30, 2012	June 30, 2011
Corporate Investment - North America & Europe [See Note 9 (a)]	1,027,179	944.845
Corporate Investment - Technology [See Note 9 (b)]	83,073	80,006
Corporate Investment - MENA [See Note 9 (c)]	23,977	23,711
Strategic and other investments [See Note 9 (d)]	87,561	73,173
Total corporate co-investments	1,221,790	1,121,735

9 (a) CORPORATE INVESTMENT-NORTH AMERICA & EUROPE

The Group's co-investments in CI-NA & Europe are classified as FVTPL investments.

The fair value of unquoted CI-NA and Europe co-investments is determined wherever possible using valuations implied by material financing events for the specific investment in question that involve third party capital providers operating at arms' length. An example of a material event would be where a sale is imminent and credible bids have been received from third parties, in which event the fair value would be established with reference to the range of bids received and based on management's assessment of the most likely realization value within that range. Another example of a material event would be where an arm's length financing transaction has occurred recently that is (a) material in nature. (b) involves third parties, and (c) attaches an implicit value to the company. In the event that such thirdparty recent measure of specific fair value for an individual investment is not available, the fair value is determined by using a multiples-based approach applied to the most recent and relevant operating performance metric of the underlying company, typically EBITDA and sometimes sales. The multiple to be used is taken from a universe of comparable publicly listed companies, recent M&A transactions involving comparable companies, and multiples implied by Discounted Cash Flow ('DCF') analysis. Management exercises its judgment in choosing the most appropriate multiple, on a consistent basis, from within the universe referred to above.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

9. CORPORATE CO-INVESTMENTS (continued)9 (a) CORPORATE INVESTMENT-NORTH AMERICA & EUROPE (continued)

The carrying values of the Group's co-investments in Cl-NA & Europe are:

\$000s VINTAGE *	June	30, 2012	June 30, 2011
Vintage 1997 (1997 - 2000)		165,601	182,040
Vintage 2001 (2001 - 2004)		10,686	43,901
Vintage 2005 (2005 - 2008)		514,461	508,105
Vintage 2009 (2009 - 2012)		336,431	210,799
Total		1,027,179	944,845

^{*} Each vintage covers a period of four calendar years starting that year, for example, vintage 1997 covers deals acquired between 1997 and 2000.

Summary by sector and location:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

9. CORPORATE CO-INVESTMENTS (continued) 9 (b) CORPORATE INVESTMENT-TECHNOLOGY

Similar to CI-NA & Europe, the Group's co-investments in CI-Technology are classified as FVTPL investments.

The fair value of unquoted co-investments in CI—Technology is determined primarily through valuations implied by material financing events for the specific investment in question that involves third party capital providers and valuation techniques using a multiples-based approach applied to the most recent and relevant operating performance metric of the underlying company, typically EBITDA and sometimes sales. In cases where these are not applicable, the Group uses a DCF valuation methodology similar to that used for CI–NA & Europe co-investments as described in Note 9 (a).

The carrying values of Group's co-investments in CI-Technology deals at June 30, 2012 and June 30, 2011 are:

\$000s	Communication Infrastructure	Wireless Data	Digital Content	Enterprise Software	Other	June 30, 2012 Total

9. CORPORATE CO-INVESTMENTS (continued)

9 (c) CORPORATE INVESTMENT – MENA

This represents the Group's co-investments through Gulf Opportunity Fund I.

The tables below show the carrying values of Gulf Opportunity Fund I investments at June 30, 2012 and June 30, 2011:

		Industry		
\$000s	Distribution	Industrial Products	Consumer Products	June 30, 2012 Total
Gulf Opportunity Fund I				
Kingdom of Saudi Arabia	-	-	9,445	9,445
Kuwait Turkey	6,537 -	-	- 7,995	6,537 7,995
Total	6,537	-	17,440	23,977
		Industry		_
\$000s	Distribution	Industrial Products	Consumer Products	June 30, 2011 Total
Gulf Opportunity Fund I				
Kingdom of Saudi Arabia	-	-	8,196	8,196
UAE Kuwait	- 4,720	6,975	-	6,975 4,720
Turkey	-	- -	3,820	3,820
Total	4,720	6,975	12,016	23,711

Similar to CI-NA & Europe, and CI-Technology the co-investments in CI-MENA are classified as FVTPL investments.

The fair value of unquoted co-investments in CI-MENA is determined primarily through valuations implied by material financing events for the specific investment in question that involves third party capital providers. In cases where these are not applicable, the Group uses an EBITDA multiples based valuation methodology.

9 (d) STRATEGIC AND OTHER INVESTMENTS

Strategic and other investments represent the following types of investments of the Group:

- 1. Investments made for strategic reasons;
- 2. Investments made for relationship reasons e.g. an opportunity introduced by an employee or a counterparty relationship; and
- 3. Instruments obtained on disposal of exited corporate investments and real estate deals or portfolios.

These are held as AFS investments and debt instruments at amortized cost, except for investments amounting to \$36.3 million (June 30, 2011: \$35.9 million) that are classified as FVTPL, of which \$25.3 million was valued based on information provided by the investment manager.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

10. REAL ESTATE CO-INVESTMENTS

The Group's co-investments in real estate investment are mainly classified as FVTPL investments. Those investments that are developed and leased out are fair valued based on the estimated future cash flows from the underlying real estate assets and using prevailing capitalization rates for similar properties in the same geographical area, or DCF analysis.

Opportunistic investments that involve an element of development are generally valued based on third party led financing events, or DCF analysis.

Certain of the debt investments forming part of Core Plus and Debt portfolio, in real estate properties are classfied as held-to-maturity ("HTM") investments amouting to \$43.4 million (June 30, 2011 \$35.4 million).

The carrying values of the Group's co-investments in real estate invesment portfolios in the United States at June 30, 2012 and at June 30, 2011 are:

\$000s

PORTFOLIO TYPE	June 30, 2012	June 30, 2011
Core Plus	83,438	102,172
Debt	26,927	27,637
Opportunistic	35,878	50,687
Strategic and other	8,217	8,342
Total	154,460	188,838

11. PROVISIONS FOR IMPAIRMENT

Specific impairment provisions for receivables, and loans and advances are as follows:

\$000s 12 months to June 30, 2012				
Categories	At beginning	Charge	Written-off	At end
Receivables (Note 6 & 20(i))	43,431	684	(37,129)	6,986
Loans and advances (Note 7 & 20(i))	49,570	404	(38,122)	11,852
Total	93,001	1,088	(75,251)	18,838
12 months to June 30, 2011	90,902	2,099	-	93,001

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

12. DEPOSITS FROM CLIENTS

\$000s		
	June 30, 2012	June 30, 2011
SHORT-TERM:		
Call accounts	152,871	103,506
Short-term deposits	4,038	5,987
Transitory balances	-	149,119
Total deposits from clients - short-term	156,909	258,612
MEDIUM-TERM:		
Medium-term deposits	37,438	18,598
Investment holding companies' deposits	66,605	59,540
Discretionary and other deposits	15,198	17,171
Total deposits from clients - medium-term	119,241	95,309
Total	276,150	353,921

Contractual deposits from clients that mature within one year from the balance sheet date are classified under short-term deposits, while those with a maturity of greater than one year are grouped under medium-term deposits.

Call accounts comprise amounts left on deposit by clients and deposits by the trust with the Bank for future participation in the Group's investment products.

Transitory balances comprise subscription amounts paid in by clients towards participation in specific investment products currently being placed by the Group. These also include investment realization proceeds held on behalf of investment holding companies by the Group in the interim period prior to distribution to or withdrawal by clients.

Investment holding companies' deposits represent excess cash deposited by the investment holding companies in the interim period prior to utilization or onward distribution. Discretionary and other deposits represent deposits held on behalf of various affiliates, including strategic shareholders and employees.

All deposits bear interest at market rates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

13. PAYABLES AND ACCRUED EXPENSES

\$000s	June 30, 2012	June 30, 2011
Accrued expenses - employee compensation	16,785	74,700
Vendor and other trade payables	19,632	24,630
Unfunded deal acquisitions	153,104	73,009
Investment related payables	3,658	3,658
Deferred income	6,417	4,997
Accrued interest payable	3,126	10,413
Total	202,722	191,407

Accrued expenses for employee compensation include the incentive and retention component of the Group's overall employee related costs.

Unfunded deal acquisitions represent amounts contractually payable by the Group in respect of investment acquisitions the agreements for which are signed as of the balance sheet date that have not been funded.

Investment related payables represent amounts contractually due in respect of exit proceeds that are held in escrow accounts and reserves pending onward distribution.

Deferred income represents amounts received by the Group from its investment activities, the recognition of which is deferred to future periods concurrent with the services to be rendered.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

14. MEDIUM-TERM DEBT

Amounts outstanding represent the drawn portion of the following medium-term revolvers and funded facilities:

			J	une 30, 2012	,	June 30, 2011		
\$000s	Maturity	Tranche Type	Size	Average utilization	Current outstanding	Size	Average utilization	Current outstanding
5-year Eurodollar facility	July 2010	Revolver	-	-	-	150,000	11,507	-
5-year Eurodollar facility	July 2010	Funded	-	-	-	150,000	11,507	-
5-year Eurodollar facility	September 2010	Funded	-	-	-	50,000	10,685	-
5-year Eurodollar facility	December 2011	Revolver	-	115,164		500,000	423,906	50,000
5.5-year Eurodollar facility	December 2011	Revolver	-	-	-	40,000	33,096	-
5-year Floating rate medium-term note	June 2012	Funded	-	18,429	-	19,000	19,000	19,000
3-year Multi-currency facility	March 2013	Funded	281,703	281,703	281,703	281,703	271,028	281,703
3-year Multi-currency facility	March 2013	Revolver	292,750	55,737	-	292,750	-	-
5-year Eurodollar facility	April 2013	Revolver	107,500	107,500	107,500	107,500	107,500	107,500
5-year Eurodollar facility	April 2013	Funded	135,500	135,500	135,500	135,500	135,500	135,500
2-year structured facility	February 2014	Revolver	55,000	12,598	50,346	-	-	-
Total			872,453	726,631	575,049	1,726,453	1,023,729	593,703
Foreign exchange translation adjustments					(2,747)			3,328
Transaction costs of borrowings					(5,046)			(12,119)
					567,256			584,912

All medium-term facilities carry LIBOR-based floating rates of interest when drawn. Revolvers carry a fixed rate of commitment fees when undrawn. The 3-year Multi-currency facility due March 2013 is subject to certain customary covenants, including maintaining certain minimum levels of net worth and liquidity and operating below a maximum leverage ratio.

The 2-year structured revolving facility of \$55 million (June 30, 2011: Nil) is secured by an equivalent amount of the Group's co-investments in hedge funds.

Forward Start Facility

During the year ended June 30, 2012, the Company and the Bank entered into a \$504 million equivalent, multi-currency senior unsecured forward start facility. This facility is split into various tranches available at various dates and with contractual amortizations in September 2013 of 15%, in September 2014 of 20%, and final maturity in September 2015 of the remaining balance of 65%. The facility is subject to certain customary covenants, including maintaining minimum levels of net worth and liquidity and operating below a maximum leverage ratio.

Total			560,491		574,64	

Long-term debt issuances by the Group predominantly carry fixed rates of interest and are governed by covenants contained in the relevant agreements. Such covenants include maintaining certain minimum levels of net worth and liquidity coverage, and operating below a maximum leverage ratio.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

16. SHARE CAPITAL AND RESERVES

Ordinary Share Capital

The Company's subscribed ordinary share capital comprises 200,000 (June 30, 2011: 200,000) ordinary shares of \$1,000 (June 30, 2011: \$1,000) each.

Preference share capital

The preference shares are non-cumulative, non-convertible, non-voting, non-participating and perpetual in nature and carry a dividend of 12% per annum up to their respective first call dates and 12-months USD LIBOR + 9.75% per annum thereafter, if not called.

These preference shares are callable in part or in whole at the Company's option any time on or after their first call dates at par plus dividend due up to the call date. The earliest call date for these preference shares is June 30, 2014.

The payment of dividends on preference shares is subject to recommendation by the Board of Directors, and approval by ordinary shareholders. The preference shares take priority over the Company's ordinary shares for payment of dividends and distribution of assets in the event of a liquidation or dissolution.

3,667 preference shares allocated to employees have been forfeited during the year ended June 30, 2011 and are carried as treasury shares by the Group, resulting in 511,465 (June 30, 2011: 511,465) net issued preference shares reported as part of equity.

Share premium

Amounts collected in excess of the par value of the issued share capital during any new issue of shares, net of issue expenses, are treated as share premium. During the fiscal year 2011, the Company netted the fair value losses on corporate and real estate co-investments amounting to \$299.9 million against the share premium. Shareholders' approval was obtained at the ordinary general meeting of shareholders held in September 2011.

General reserve

The general reserve, established in accordance with the articles of association of the Company, is only distributable following a recommendation by the ordinary shareholders. During the fiscal year 2011, the Company transferred \$50 million of the general reserve to retained earnings. Shareholders' approval was obtained at the ordinary general meeting of shareholders held in September 2011.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

16. SHARE CAPITAL AND RESERVES (continued)

Treasury shares

These represent the Bank's ordinary shares purchased by the Group and also those purchased by SIPCO Limited, which are funded by the Group. These shares are treated as treasury shares in the financial statements and are deducted from the Equity of the Group

Of the 800,000 issued ordinary shares of the Bank,186,698 (June 30 2011: 203,607) ordinary shares were held as treasury shares as at June 30, 2012. Treasury shares include the equivalent of 16,000 shares (June 30 2011: 20,000) allocated to the employees for which the income statement charge will be taken in the future, based on management's best estimate of future vesting. These relate to 24,000 shares which were allocated to employees at \$460 per share, being their fair value on the allotment date. The shares vest on a systematic basis over four years with the first vesting being on July 1, 2012 and the Bank has taken an income statement charge of \$1.8 million (2011: \$1.0 million) in the current year based on management's best estimate of the number of shares that are likely to vest.

17. UNREALIZED FAIR VALUE CHANGES RECOGNIZED DIRECTLY IN EQUITY AND REVALUATION RESERVE

This consists of unrealized fair value changes of AFS investments, cash flow hedges and revaluation reserve of premises and equipment recognized directly in equity.

Movements in fair value changes relating to AFS investments, cash flow hedges and revaluation reserve are set out below:

\$000s	Available for sale investments	Cash flow hedges	Revaluation reserve	Total
Balance at June 30, 2010	6,573	11,679	3,471	21,723
Net realized loss recycled to statement of income	-	1,279	-	1,279
Net unrealized (losses)/gains for the year	(1,860)	6,950	-	5,090
Revaluation loss on premises and equipment	-	-	(3,034)	(3,034)
Transfer of depreciation to retained earnings	-	-	(437)	(437)
Balance at June 30, 2011	4,713	19,908	-	24,621
Net realized gain recycled to statement of income	-	(792)	-	(792)
Net unrealized losses for the year	(1,986)	(14,494)	-	(16,480)
Transfer of depreciation to retained earnings	-	-		
Balance at June 30, 2012	2,727	4,622	-	7,349

Refer to Note 18 for fair valuation of cash flow hedges.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

18. DERIVATIVE FINANCIAL INSTRUMENTS

The Group utilizes derivative financial instruments primarily as risk management tools for hedging various balance sheet and cash flow risks. Such derivative instruments include forwards, swaps and options in the foreign exchange and capital markets.

The Group's criteria for a derivative financial instrument to be accounted for as a hedge include:

- the hedging instrument, the underlying hedged item, the nature of the risk being hedged and the risk management objective and strategy must be formally documented at the inception of the hedge;
- it must be clearly demonstrated that the hedge, through changes in the value of the hedging instrument, is expected to be highly effective in offsetting the changes in fair values or cash flows attributable to the hedged risk in the hedged item;
- the effectiveness of the hedge must be capable of being reliably measured;
 and
- the hedge must be assessed on an ongoing basis and determined to have actually been highly effective throughout the financial reporting period.

The Group's management classifies hedges into two categories: (a) fair value hedges that hedge exposure to changes in fair value of a recognized asset or liability; and (b) cash flow hedges that hedge exposure to variability in cash flows that is attributable to a particular risk associated with either a recognized asset or liability or a forecasted transaction highly probable to occur.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

18. DERIVATIVE FINANCIAL INSTRUMENTS (continued)

The following table illustrates the accounting treatment of fair value changes relating to various types of effective hedges:

Type of hedge	Changes in fair value of underlying hedged item relating to the hedged risk	Changes in fair value of hedging instrument
Fair value hedges	Recorded in the consolidated statement of income, and as a corresponding adjustment to the carrying value of the hedged item on the consolidated balance sheet.	Recorded in the consolidated statement of income, with a corresponding effect on the consolidated balance sheet under positive or negative fair value of derivatives.
Cash flow hedges	Not applicable	Recorded in equity with a corresponding effect on the consolidated balance sheet under positive or negative fair value of derivatives. Any unrealized gains or losses previously recognized in equity are transferred to the consolidated statement of income at the time when the forecasted transaction impacts the consolidated statement of income.

Other derivatives

The Group does not actively engage in proprietary trading activities in derivatives. However, on occasions, the Group may need to undertake certain derivative transactions to mitigate economic risks under its asset-liability management and risk management guidelines that may not qualify for hedge accounting under IAS 39 (e.g. hedging of foreign currency risk on FVTPL investments). Consequently, gains or losses resulting from the re-measurement to fair value of these derivatives are taken to the consolidated statement of income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **JUNE 30, 2012**

18. **DERIVATIVE FINANCIAL INSTRUMENTS (continued)**

The table below summarizes the Group's derivative financial instruments outstanding at June 30, 2012 and June 30, 2011:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

18. DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Fair value hedges

Gains arising from fair value hedges during the year ended June 30, 2012 were \$ 20.7 million (June 30, 2011: losses of \$25.5 million) while the losses on the hedged items, attributable to interest rate and foreign currency risks, were \$23.0 million (June 30, 2011: gains of \$22.8 million). These gains and losses are included in interest expense or treasury and other asset based income as appropriate in the consolidated statement of income.

Undiscounted cash flows for forecasted items hedged

The Group has hedged the following forecasted cash flows, which primarily relate to interest rate and foreign currency risks. The cash flows from the hedged item impact the consolidated statement of income in the following periods, assuming no adjustments are made to hedged amounts:

June 30, 2012 \$000s	Up to 3 months	>3 months up to 1 year	>1 year up to 5 years	Over 5 years	Total
Currency risk					
Forecasted transactions	(50)	-	-	-	(50)

Interest rate risk					
Fixed coupon on long-term debt *	(1,412)	(2,098)	(12,555)	(2,760)	(18,825)
	(9,616)	(10,252)	(77,786)	(214,761)	(312,415
June 30, 2011 \$000s	Up to 3 months	>3 months up to 1 year	>1 year up to 5 years	Over 5 years	Total
\$000s	•	•		Over 5 years	Total
	•	•		Over 5 years (225,806)	Total (306,452)

The ineffective portion of cash flow hedges recycled out of equity to the consolidated statement of income for the year ended June 30, 2012 was \$1.5 million (June 30, 2011: \$0.7 million).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

19. COMMITMENTS AND CONTINGENT LIABILITIES

\$000s		
	June 30, 2012	June 30, 2011
Investment commitments to closed-end funds	146,843	169,911
Other investment commitments	2,860	3,213
Total investment commitments	149,703	173,124
Non-cancelable operating leases	49,591	57,809
Guarantees and letters of credit issued to third parties	63,993	13,993

Investment related commitments include future funding of acquisitions that were contracted but not funded at the balance sheet date, and the Group's unfunded co-investment commitments to various corporate investment and real estate investment funds.

Non-cancelable operating leases relate to the Group's commitments in respect of its New York and London office premises.

Guarantees and letters of credit issued to third parties include financial guarantees provided to facilitate investee companies' on-going operations and leasing of equipment and facilities.

In addition, the Group has also issued indemnification letters and back stop guarantees in support of performance obligations of operating partners and investee companies in relation to real estate investments, which are covered under the Group's Errors and Omissions insurance policy.

The Group is engaged in litigation cases in various jurisdictions. The litigation cases involve claims made by and against the Group which have arisen in the ordinary course of business. The management of the Group, after reviewing the claims pending against the Group companies and based on the advice of the relevant professional legal advisors, are satisfied that the outcome of these claims will not have a material adverse effect on the financial position of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT

Risk management is an integral part of the Group's corporate decision-making process. The Financial and Risk Management Committee (FRMC), which oversees the Group's risk management activities, and sets the Group's risk profile on an enterprise wide basis is comprised of members of senior management drawn from all key areas of the Group.

The Group's primary risk management objective is to support its business objectives with sufficient economic capital. The Group employs risk models to determine the capital needed to cover unexpected losses from investment or other risks. This capital amount is known as economic capital and differs from regulatory capital. The economic capital requirement for each reporting segment is determined for a one year horizon and subsequently the aggregated economic capital is stress tested under a dynamic VaR approach. The dynamic VaR is calculated by using a five-year planning horizon, a 99% one-tailed confidence level and by recognizing diversification benefits across asset classes.

In addition to determining an adequate economic capital allocation for each reporting segment, the risk management team has developed sophisticated tools in conjunction with leading risk management consultants to perform detailed risk analyses that specifically address the investment risks in each individual line of business.

The principal risks associated with the Group's business, and the related risk management processes are explained below:

i) Counterparty credit risk

The Group is exposed to counterparty credit risk on its short term funds, placements, fair value of derivatives, receivables, loans and advances, debt investments and guarantees. The Group manages counterparty credit risk by setting limits for all counterparties. The Group also monitors credit exposures, and continually assesses the creditworthiness of counterparties. Counterparty credit risk in respect of derivative financial instruments is limited to those with positive fair values (see Note 18). With respect to the counterparty credit risk exposure arising from other financial assets the Group has a maximum exposure equal to the carrying value of these instruments. The Group also actively attempts to mitigate counterparty credit risks through documented netting and margin arrangements with counterparties, where possible, via ISDA and CSA agreements.

Risk Management maintains an overall external rating-based methodology for setting Board approved counterparty limits. For rated counterparties, credit ratings from at least two rating agencies are used for developing counterparty limits. All non-rated counterparties are screened through detailed due diligence and credit analysis prior to the assumption of credit exposures to them by Investcorp. These non-rated counterparties are categorized under the 'Standard' internal rating for financial reporting purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

i) Counterparty credit risk (continued)

The table below shows the relationship between internal rating* and the category of the external rating grades:

Internal Rating	External Rating by S & P and Moody's
High	AAA to A
Standard	A- to B-

^{*} The internal rating is used to determine provisions and impairments for financial reporting purposes.

Internal rating categories are summarized as follows:

High - there is a very high likelihood of the asset being recovered in full and collateral may be available.

Standard – whilst there is a high likelihood that the asset will be recovered and therefore, represents low risk to the Group, the asset may not be collateralized.

Counterparty credit risk exposure is considered as past due when payment is due according to the contractual terms but is not received.

The table below analyses the Group's maximum counterparty credit risk exposures at the balance sheet date without taking into account any credit enhancements.

June 30, 2012 \$000s	Neither pa impa (i		Past due but not impaired (b)	Impaired*	Provisions (d)	Maximum credit risk (a+b+c+d)	Average balance
	Credit ri	sk rating

^{*} Fair value of collaterals relating to impaired exposures is nil (June 30, 2011: nil).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

i) Counterparty credit risk (continued)

The aging analysis of the past due but not impaired financial assets is given in the table below.

\$000s	June 30, 2012	June 30, 2011
Up to 1 month	2,261	37,802
> 1 up to 3 months	6,251	34,398
> 3 up to 6 months	2,947	912
> 6 months up to 1 year	51	4,873
Over 1 year	11,299	21,597
Total	22,809	99,582

The financial assets that are past due but not impaired mainly relate to subscriptions receivable from clients. These assets are over-collateralized by all other assets under management on behalf of these clients. The collateral is revalued from time to time in the same manner as the Group's exposure to investments. The fair value of collateral that the Group holds relating to financial assets that are past due but not impaired at June 30, 2012 amounts to \$403 million (June 30, 2011: \$1,034 million).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

ii) Funding liquidity risk (continued)

Funding liquidity risk is the risk that the Group will be unable to fund increases in assets and meet obligations when they fall due, without incurring unacceptable losses. To mitigate this risk, the Group implements a comprehensive liquidity risk management framework, which includes use of risk limits, monitoring systems, and scenario analyses that are incorporated into a contingency funding plan. The framework is consistent with regulatory requirements and is subject to Board and senior management oversight. Liquidity management aims to arrange diversified funding sources and maintain long-dated maturities of liabilities. The Group manages assets with funding liquidity in mind, and monitors funding liquidity on a daily basis.

The table below summarizes the maturity profile of the Group's assets and liabilities based on expected realizations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

ii) Funding liquidity risk (continued)

Contractual maturity of financial liabilities on an undiscounted basis

The table below presents the cash flows payable by the Group relating to its financial liabilities and derivatives upon their respective earliest contractual maturities at the balance sheet date. The amounts disclosed in the table are the contractual undiscounted cash flows (i.e. nominal plus interest) determined by using the forward yield curve for the relevant periods. However, the Group manages the inherent funding liquidity risk based on future cash flows discounted to present values.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

iii) Concentration risk

Concentration risk arises when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location. The Group's policies and procedures and the broad geographical and industry spread of its activities limit its exposure to any concentration risk. Additionally management has established credit limits for geographic and counterparty exposures, which are monitored on a daily basis.

The distribution of assets and off-balance sheet items by geographical region and industry sector is as follows:

	June 30, 2012		June 30, 2011			
Assets exposed to credit risk	Off-balance sheet items exposed to credit risk	Total credit risk exposure	Assets exposed to credit risk	Off-balance sheet items exposed to credit risk	Total credit risk exposure

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

iv) Market price risk

The principal market related risks to which the Group is exposed are foreign currency risk, interest rate risk and equity price risk associated with its co-investments in hedge funds, corporate investment and real estate investment, as well as on its debt financings. For purposes of managing market price risks, the Group has established appropriate procedures and limits approved by the Board of Directors.

In addition, for internal risk assessments, the Group uses a variety of internal models to analyze the market price risks that may arise from adverse market movements.

Market price risk has been further detailed below under (a) foreign currency risk, (b) interest rate risk and (c) equity price risk.

iv) (a) Foreign currency risk

The Group's overall policy is generally to hedge all non-US dollar denominated assets, liabilities and commitments into US dollars utilizing currency risk management products. In the normal course of its business the Group utilizes forward foreign exchange contracts and foreign exchange derivatives to manage its exposure to fluctuations in foreign exchange rates. Positions are monitored on a daily basis and hedging strategies are used to ensure positions are maintained within established exposure and Value at Risk ("VaR") risk limits.

The Group's significant net hedged and un-hedged foreign currency positions are set out below.

\$000s	June 30	June 30, 2012 June 30, 2011			
Long (Short)	Net hedged	Net unhedged	Net hedged	Net unhedged	
Long (Short)	exposure	exposure	exposure	exposure	
Bahraini Dinar*	-	39,774	-	39,667	
Euro	367,331	356	412,247	68	
Pounds Sterling	58,168	122	16,593	(56)	
Japanese Yen	(467,559)	521	(411,276)	213	
	(42,060)	40,773	17,564	39,892	

Incidental unhedged positions are subjected to market risk calculation based on their VaR. VaR estimates the potential loss due to market movement of foreign exchange rates or volatility of these rates within a 99% confidence level over a 10-day holding period. Potential market movements of foreign exchange rates are derived from a study of their historical volatility. The risk methodology is based on the assumption that changes in foreign exchange rates follow a normal probability distribution over time. The characteristics of normal distribution are then used to assess portfolio risk. However, the Group's risk management team conducts back testing by comparing the daily VaR with the daily profit and loss to ensure the robustness of the VaR model.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

iv) Market price risk (continued)

iv) (a) Foreign currency risk (continued)

The following table summarizes the VaR during the year for the Group's foreign currency exposures.

\$000s	2012	2011	
Average FX VaR	6	13	
Year end FX VaR	11	5	
Maximum FX VaR	28	91	
Minimum FX VaR	1	1	

iv) (b) Interest rate risk

The Group closely monitors interest rate movements, and seeks to limit its exposure to such movements by managing the interest rate repricing structure of its assets and liabilities The Group actively manages its interest rate repricing gap exposure, with a bias towards floating rates and with strict exposure limits that are approved by the Board of Directors. The Group does not take interest rate trading positions and all its interest rate risk is typically in the banking book where hedge accounting applies. The Group also utilizes interest rate related derivative financial instruments to manage its exposure to fluctuations in interest rates for specific transactions or a group of transactions.

A majority of the Group's interest earning assets and interest bearing liabilities carry floating rates of interest or if they carry fixed rates they have been hedged to floating rates of interest, except for the following:

- Investments amounting to \$51.1 million (June 30, 2011: \$27.2 million), which earn interest at an effective rate approximating 11.6% (June 30, 2011: 10.4%) per annum.
- Deposits from clients amounting to \$37.7 million (June 30, 2011: \$7.2 million) on which interest is paid at an effective rate of 4.66% (June 30, 2011: 0.9%) per annum reflecting the underlying maturity structure.

Apart from the above, the Group has fixed interest rate on long term debt amounting to \$650 million (June 30, 2011: \$125 million) at an effective rate of 1.2% (June 30, 2011: 2.9%) per annum. This includes \$400 million and \$100 million of debt converted to fixed rate using interest rate swaps with short term maturities in July 2012 and March 2013 respectively. The remaining \$150 million is part of a tactical move to take advantage of the low interest rate yields in the current environment and to hedge against any volatility in the future cash flows.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

iv) Market price risk (continued)

iv) (b) Interest rate risk (continued)

The following table depicts the sensitivity of the Group's net income to a 200 basis points possible change in interest rates, with all other variables held constant. The sensitivity is based on the floating rate financial assets and financial liabilities (including items hedged back to floating rate) held at the balance sheet date.

\$000s	Sensitivity to net income for +200 basis points	Sensitivity to net income for - 200 basis points
Currency	June 30), 2012
Euro	(7,691)	1,864
Pounds Sterling	(1,333)	432
Japanese Yen	880	(167)
US Dollar	(8,207)	3,187
Others	155	(3)
Total	(16,196)	5,313
a) Figures in parenthesis above represent loss.b) The downside case of -200bps impact is calculated with the	assumption that the yield curve will not	go below 0%

\$000s	Sensitivity to net income for i +200 basis points	Sensitivity to net income for - 200 basis points			
Currency	June 30	June 30, 2011			
Euro	(9,673)	6,819			
Pounds Sterling	(715)	234			
Japanese Yen	1,246	(13)			
US Dollar	(1,849)	928			
Others	145	(10)			
Total	(10,846)	7,958			
a) Figures in parenthesis above represent loss. b) The downside case of -200bps impact is calculate.	ed with the assumption that the yield curve will not o	go below 0%			

Potentially significant variances in interest rate sensitivity may exist at dates other than the year end.

The Group has used the standardized approach to calculate the credit spread risk arising from credit derivative instruments such as credit linked notes (CLN) and funded credit default swaps (Funded CDS) where the referenced risk is highly rated sovereigns. The specific risk capital allocation against such exposures amounted to nil (June 30, 2011: \$0.3 million and general risk capital allocation amounted to \$0.02 million (June 30, 2011: \$0.25 million).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

iv) Market price risk (continued)

iv) (c) Equity price risk

The Group's equity price risk arises primarily from its co-investments in hedge funds, corporate investment and real estate investment.

Co-investments in corporate investment and real estate investment

The Group manages the equity price risk of its co-investments in corporate investment and real estate investment on a portfolio basis as well as at the individual investment level, where an independent risk analysis is conducted at the preacquisition stage.

The table below summarizes the sensitivity of the Group's Level 3 co-investments in CI-NA & Europe, CI - Technology and real estate investment to changes in multiples / discount rates.

June 30, 2012 \$000s	Factor	Change	Balance sheet exposure	Projected Bal		Impact on I	ncome
CI - NA & Europe	EBITDA Multiples	+/- 0.5x	1,006,019	Increase 1,086,918	Decrease 913,401	Increase 80,899	Decrease (92,618)
CI - Technology	EBITDA Multiples	+/- 0.5x	76,815	84,537	69,093	7,722	(7,722)
Real Estate Investment	Capitalization Rate	+/- 1%	111,016	149,277	76,103	38,261	(34,913)
June 30, 2011	_		Balance sheet	Projected Bal			
			exposure	Expos	uro	Impact on I	ncomo
\$000s	Factor	Change	ехрозите				
•	EBITDA Multiples	+/- 0.5x	944,845	Increase 1,037,589	Decrease 852,607	Increase 92,744	Decrease (92,238)
CI - NA & Europe CI - Technology			,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	Increase	Decrease	Increase	Decrease

In the opinion of the Group's management, there is no material sensitivity in the net income of the Group to any reasonably possible changes in the fair value of CI–MENA, and in the equity of the Group in respect of AFS strategic co-investments.

Co-investments in hedge funds

The Group manages the market price risk in its hedge fund portfolio through its market risk management framework that uses the "Value at Risk" (VaR) technique. VaR techniques produce estimates of the potential negative change in the market value of a portfolio over a specified time horizon at given confidence levels.

The table below sets out the VaR, at a 99% confidence level and a one-month time horizon, for the Group's hedge funds exposure.

2012	2011
37,154	40,583
31,060	37,920
41,598	43,799
31,060	37,920
	37,154 31,060 41,598

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

20. RISK MANAGEMENT (continued)

v) Operational risk

Operational risk is defined as the risk of loss arising from inadequate or failed internal processes, people and systems or from external events (such as natural disasters, changes in regulation or outsourcing of operations). Investcorp includes in this definition legal risk but excludes reputational and strategic risks.

While operational risks cannot be entirely eliminated, they are managed and mitigated by ensuring that appropriate infrastructure, controls, systems, procedures and trained and competent people are in place throughout Investcorp. Internal audit makes regular, independent appraisals of the control environment in all identified risk areas. Contingency arrangements, which are tested from time to time, are also in place to support operations in the event of a range of possible disaster scenarios.

As a part of the Basel 2 implementation, Investcorp has put an operational risk framework in place. Under this framework Investcorp applies the Basic Indicator Approach ("BIA") to measure operational risk. Under this approach, Investcorp's average gross income over the preceding three financial years is multiplied by a fixed alpha coefficient which has been set at 15 per cent in the CBB's Basel 2 capital adequacy framework.

Investcorp's operational risk framework, which is based on BIA for regulatory reporting, is being revised to include, in the first and second phases, a maker/checker process, an updated review of Risk and Control Self-Assessment and a tracker of material losses by Investcorp's lines of business. Subsequent to the implementation of these revisions, monitoring and reporting processes for operational risk exposures will be implemented for upward reporting to senior management and the Board

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

21. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Fair value adjustments arise from re-measurement to fair value of investments, liabilities and derivatives.

The fair values of the Group's financial assets and liabilities on the consolidated balance sheet are not materially different to their carrying value except for fixed rate liabilities effectively carried at amortized cost. The fair value of medium and long term debt amounts to \$813.0 million (June 30, 2011: \$1,016.3 million) as compared to carrying value of \$1,135.6 million (June 30, 2011: \$1,159.6 million).

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: input other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

\$000s	Level 1	Level 2	Level 3	Total
Financial assets				
Placements with financial institutions				
and other liquid assets	-	3,000	-	3,00
Positive fair value of derivatives	-	81,250	-	81,25

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

22. EMPLOYEE COMPENSATION

In designing its employee compensation plans, Investcorp's primary objective is to provide employees with a secure compensation platform upon which they are encouraged to pursue outstanding returns and to reward them based on their results in line with the interests of clients and shareholders. This is achieved through a combination of cash salaries, variable bonuses dependent upon Group, unit and individual performance, and participation in various long-term employee investment and ownership programs described below.

Salaries are determined and revised based on competitive market conditions, while the aggregate Group bonus is determined based on gross income before bonuses for the year such that the aggregate executive compensation, including salaries and bonuses, is maintained at a target ratio of total income consistent with industry benchmarks.

Similar to most other investment institutions, the overall compensation paid to Investcorp's executives is highly correlated with Investcorp's net income.

Consistent with established practice amongst investment institutions specializing in alternative asset classes, the Group's management participates in various investment programs that align their interests with those of clients and shareholders.

The benefit of these investment programs arises from participation in the returns generated by the underlying investments. There are broadly three such programs, as described below.

In addition, the Group accounts for employee end of service benefits on an accrual basis. The charge during the current year, in respect of these benefits, amounts to \$1.8 million (2011: \$1.0 million).

Programs for Investment Profit Participation

The Group's investment professionals in its corporate investment, real estate investment and placement and relationship management lines of business participate in "carry-based" programs, whereby a certain variable portion of exit proceeds due to investors from realization of their investments is shared with these professionals, provided certain pre-established minimum return hurdles are exceeded. Since this carry is awarded upfront at the time of acquisition it has no significant value at the time of the award.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

22. EMPLOYEE COMPENSATION (continued)

Programs for Investment Participation

The Group's professional staff is also offered the opportunity to co-invest alongside clients in the Group's investment products that they manage, including corporate investment, real estate investment and the Hedge Funds lines of business. Employees co-invest in the underlying investments at the Group's cost basis, thereby resulting in no gain or loss to the Group. Employees may also invest in other lines of business as long as they meet the accredited/sophisticated investor criteria imposed by the regulatory authorities in the country in which their office is located.

Historically, the Group, together with third party lenders, provided financing at market rates to or on behalf of eligible employees, to invest in these programs on a levered basis. The permissible levels of leverage varied on a product to product and program to program basis. The aggregate remaining amount of such financing provided to or on behalf of employees as of June 30, 2012 is \$94.7 million (June 30, 2011: \$97.6 million).

Share Ownership Program

SIPCO Holdings Limited ("SHL") sponsors various employee share ownership plans under which eligible employees have previously received, and currently receive, a portion of their annual performance incentive compensation in the form of a beneficial interest in the ordinary shares of the Bank and have previously received a beneficial interest in the preference shares of the Bank These beneficial interests have different vesting periods and are not transferable.

Accordingly, under each plan, the Group does not incur any costs or expenses other than the fair value of these beneficial interests in the shares of the Bank as they are accounted for expected vesting, since these awards occurred at the fair value of the shares. This expense is recorded based upon expected vesting of the shares. These plans are therefore fully paid up employee share ownership programs pursuant to which employees have effectively paid fair value for purchasing the beneficial interest in shares of the Bank.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

23. RELATED PARTY TRANSACTIONS

For the Group, related parties include its investee companies, companies that hold clients' investments (clients' investment holding companies), client fund companies associated with hedge funds and the parent company through which the employees invest in beneficial ownership of the Bank's ordinary shares.

It also includes major shareholders, directors and senior management of the Company, their immediate families and entities controlled, jointly controlled or significantly influenced by such parties. Income is earned or expense is incurred in the Group's transactions with such related parties in the ordinary course of business. The Group's management approves the terms and conditions of all related party transactions.

Although these companies are being classified as related parties, the Group administers and manages the companies that hold clients' investments on a fiduciary basis on behalf of its clients who are third parties and are the beneficiaries of a majority of the economic interest from the underlying investments of these companies. As a result, the true nature of the Group's transactions with these companies is effectively at commercial terms as specified under pre-determined management agreements.

In addition to the compensation and benefits to employees disclosed in Notes 22, the income earned and expenses incurred in connection with related party transactions included in these consolidated financial statements are as follows:

\$000s		June 30, 2012	June 30, 2011

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2012

23. RELATED PARTY TRANSACTIONS (continued)

Of the staff compensation for the year set out in Note 5, \$24.9 million (2011: \$58.4 million) is attributable to senior management (including an employee who is also a director). Of the above mentioned remuneration of senior management, \$21.6 million (June 30, 2011: \$57.4 million) is short term in nature.

In addition to the compensation and benefits to employees disclosed in Note 22, the balances with related parties included in these consolidated financial statements are as follows:

	June 30, 2012			June 30, 2011

The Group carries out its investment activity along with certain strategic partners who are clients as well as shareholders of the Group and whose business interests are aligned with the interest of the Group. In doing so, the strategic partners have, in addition to their own equity, obtained asset backed financing amounting to \$420 million as at June 30, 2012 (June 30, 2011: \$422 million) from the Group at market rates of interest which is reflected in the consolidated balance sheet under the relevant asset categories funded by the financing.

The Group has also entered into management agreements with the strategic partners to manage these investments and consequently it shares a portion of the risks and rewards from the underlying investments. Income and expenses arising from these arrangements are included under client companies in the table on the previous page, to the extent they result from transactions with related parties.
